Manufacturers of Boxes, Sash, Mill-Work and Concrete Products.

"Everything to Build Anything."

IMPORTANT INSTRUCTIONS

Read Carefully

HOOD RIVER EXCHANGE

To call Central, take the receiver off the hook in the usual way.

If the line called for is busy, you will be so informed by a series of buzzes. On hearing this buzz hang up your receiver. In a few minutes you may repeat the call. The Operator does not know the line is busy. The apparatus, which is automatic, must give you this information.

Upon the completion of a call, if you wish to get Central again, replace the receiver on the hook and in a short time remove it.

Never Shake Your Receiver Hook. When it goes up, on taking the receiver down, a signal, signifying you are calling, will appear in front of an operator. If you move your receiver hook again you will disconnect yourself.

To call a party on the same line to which your telephone is connected, it is necessary that you know your own number and also that the party wanted is on your line. To get this information bear in mind the following: The line numbers run from 100 up and on each line there are from one to eight telephones. The telephone numbers for the eight parties, on the 582 line for example, would be 5821, 5822, 5823, 5824, 5826, 5827, 5828 and 5829. From this it is seen that the first three numbers in a telephone number indicate the line to which the telephone is connected and the last figure the particular party on that line. Suppose your telephone number is 5019 and you want to call 5013. When the operator requests the number wanted, say—"on this line 5013." You will then hang up your receiver long enough to allow your party to be called. If you call for a party on the same line as yourself, without carrying out the preceding instructions, you will get the busy signal.

The operators do not ring. It is done automatically.

A subscriber connected to the Hood River Exchange, wanting to talk to a subscriber in the Odell or Parkdale Exchange, will ask for the exchange desired and upon being answered by the operator at that exchange will give her your name and telephone number, also the Odell or Parkdale number that you wish.

There is a toll charge between Hood River and Odell or Parkdale as follows:

First 5 minutes or fraction thereof\$.05

Each additional 5 minutes or fraction thereof\$.05

INSTRUCTIONS FOR PARKDALE AND ODELL EXCHANGES

Listen on the line before ringing and hang up the receiver at once if the line is busy.

• Use your telephone whenever necessary but avoid all unnecessary use and be brief. It is often inconvenient and annoying to wait for the use of the line while others are talking on matters of no importance.

To call a subscriber on the same line with your telephone use the following Code:

The last figure or letter and figure, of a number, indicate the number and character of the ring as follows:

- 1 One Short Ring.
- 2 Two Short Rings
- 3 Three Short Rings.
- 4 Four Short Rings
- 5 Five Short Rings (Also used for One Long Ring):
- 6 One Long and One Short Ring
- 7 One Long and Two Short Rings
- 8 One Long and Three Short Rings
- 9 One Long and Four Short Rings
- X Two Long Rings
- X1 Two Long and One Short Rings
- X2 Two Long and Two Short Rings
- X3 Two Long and Three Short Rings
- X5 Three Long Rings

The first part of the telephone number designates the line number and the last indicates the number and character of the ring. For example:

72X2 is two long and two short rings on line 72; 453 is three short rings on 45; 63 is three short rings on line 6.

There is a toll charge between Odell or Parkdale and Hood River as follows:

First 5 minutes or fraction thereof ..\$.05
Each additional 5 minutes or fraction \$.05
